

Digest Pro

Natural pancreatic enzyme supplement formula

90 TABLETS

D I G E S T P R O

DESCRIPTION

Digest Pro is a natural pancreatic enzyme supplement formula providing 600 mg of quadruple strength pancreatin, which is equivalent to 2,400 mg of regular USP pancreatin. **Digest Pro** tablets are enteric coated.

FUNCTIONS

The pancreas supplies the major digestive enzymes which catalyze the breakdown of fats, carbohydrates and protein, so that the breakdown products can be absorbed in the upper small intestine.

Although fat digestion starts in the mouth with salivary lipase, most fat triglycerides are digested by pancreatic lipase, which is secreted by the exocrine pancreas into the duodenum. Pancreatic lipase separates triglycerides into monoglycerides and free fatty acids, which are efficiently absorbed in the upper small intestine.

Some carbohydrate digestion takes place in the mouth by salivary amylase, but pancreatic amylase is the major carbohydrate-digesting enzyme. It breaks down starches into maltose and maltotriose, which are further hydrolyzed into glucose by the disaccharidases of the mucosal cells, and then absorbed.

Protein digestion is initiated in the stomach by pepsin and hydrochloric acid, which denature and divide large proteins into smaller polypeptides. The pancreatic proteinases, trypsin and chymotrypsin, break down these polypeptides into free amino acids, and di- or tri-peptides, which are directly absorbed by the intestinal mucosa.

Digest Pro provides high levels of catalytically active pancreatic enzymes which are specific for fats, carbohydrates and proteins.

INDICATIONS

Digest Pro tablets may be a useful nutritional adjunct for individuals who wish to supplement their diets with pancreatic lipase, protease and amylase.

SIDE EFFECTS

No adverse effects have been reported.

Supplement Facts

Serving Size 1 Tablet
Servings Per Container (90)

| Amount Per Serving | %DV |
|--|-----|
| Pancreatin 4x.....600 mg | * |
| Equivalent to 2,400 mg | |
| Pancreatin USP which provides the following minimum enzyme activity: | |
| Lipase 12,000 USP Units | * |
| Protease60,000 USP Units | * |
| Amylase60,000 USP Units | * |

*Daily Value not established.

Other ingredients: Cellulose, vegetable stearine, magnesium stearate, silica and pharmaceutical glaze.

SUGGESTED USAGE:

As a dietary supplement, **adults take 1 tablet with each meal**. Do not exceed 7 tablets per day. Not intended for chewing. **Do not take this product if you are allergic to pork**. Children under 12 years of age should not use except on advice of healthcare professional.

KEEP OUT OF REACH OF CHILDREN

For optimal storage conditions, store in a cool, dry place. (59°-77°F - 15°-25°C) (35%-65% relative humidity).

Manufactured by: **DOUGLAS LABORATORIES**
Pittsburgh, PA 15205 • www.douglaslabs.com

Tamper resistant package, do not use if outer seal is missing. **PY115274-03**
